

# Menu:

Our chef can custom create any bespoke menu you prefer. The following is one of a limitless number of menu styles we can design for you. We are able to offer wine pairing service, however, to pair it with our menus we believe wine selection is a personal choice and leave that to you, our guest.

Our menu was created with a celebratory, family-style dining experience in mind, coursed so that all may be enjoyed by the table. Our food is deliberately simple and unadorned- highlighting the beautiful local products of Southwest Florida and beyond, including vegetables grown from 5 miles from our kitchens, located only a half mile from where you sit. We welcome you to Napa Valley Catering. (catering name idea)
